The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

Goodall to be Incorporated.
(Continued from First Page)

the matter is that the postoffice department would hardly permit such a name for their postoffice, owing to the confusion with that of Daytona which would surely follow. Numerous instances of postoffice names more similar were cited by the speaker, some being Palm Beach and West Palm Beach, Tampa, Port Tampa and Port Tampa City, while any number of East and West cities were mentioned.

On motion, March 25th was selected as the date of election, the polling place to be at Keating's casino. E. L. Howard, J. C. Butler and W. P. Waldron were elected as inspectors, and S. P. Johnson as clerk.

All qualified voters present, with the exception of Mr. Thompson, strongly advocated the incorporation of the entire district as proposed in order to tax the large property holders there for the maintenance of the streets and roadways, but those persons opposed to being forced into incorporation strongly intimated that a legal fight would be the outcome if the measure becomes a law.

An Important Tour Ended.
(Continued from First Page)

which it is not navigable. A canal cut across to Lake Okechobee, from the head of Santa Lucia, would give a direct outlet for that lake to the Atlantic Ocean, and, the members of the party believe, would accomplish great results in the way of drainage. They favor such a canal, cut 200 feet wide, and of sufficient depth for the navigation of stern-wheel steamboats. Such a canal would give a direct water route from the Atlantic to the Gulf. By this route a boat could enter the Santa Lucia river, pass through the canal into Lake Okechobee, thence through the canals connecting the lake with the Caloosahatchee river and down that river to Fort Myers, and on to Punta Rassa, on the Gulf coast.

The canal system is not to be confined to the Everglades, however, for the plans discussed include an inland water route from Jacksonville to Punta Rassa, on the Gulf coast. Such a project, broached some years ago, would have been hooted at, but it is believed to be feasible and practicable.

W. K. Wagner and wife, Otto Schumann, of Youngstown, O., are at Schmidt's Villa for a week's visit in the city.

A Bargain for Balance of Season.

For Rent. 6 room furnished house, near Ridgewood on Orange avenue. Electric lights, fire place, bath and all modern improvements. Everything new. Price reasonable. Enquire of R. J. Malby, manager Bond Lumber Co.

At the Opera House.

The Gagnon-Pollock Co. presented the "Two Orphans" at the Opera House last night to a large and appreciative audience.

Miss Pollock as Louise, the blind girl, and Mr. Gagnon, as Pierre Frochard, cripple, by their pathetic manner of acting the parts of these unfortunate people, brought tears to the eyes of many of the audience.

Harold Morlaunt appeared in two characters, Jacques Frochard and Chevalier De Vandry, which he assumed with his usual rare skill.

Gio. Hanna also appeared in two roles as the Count De Lineres and Marquis De Presles, both being impersonated with a manner natural to the born actor alone.

The costumes used in this play were elaborate and much finer than generally used in Daytona. It is to be regretted that the stage was too small for the expensive scenery to be used which the company brought with them.

A deer which had been shot was seen in a wagon on the streets yesterday. The owner evidently did not know that he was violating the law by killing or having in his possession a deer at this season of the year.

The friends of Mr. and Mrs. W. W. Austin will regret to learn of the death of their infant son, which occurred this morning.

Supreme Test.

She was a Wisconsin girl of more than the usual share of this world's goods who became engaged to the man from Maine, a civil engineer, whose business was in the far west. Compelled to separate soon after the engagement, 2,000 miles soon divided the two lovers. Business duties called the man away, but frequent letters helped to shorten the months of separation. Turning her attention to cooking, this girl of almost unlimited wealth soon proved her devotion to her absent lover by mastering the difficulties of cooking in anticipation of that happy time when she should have a home of her own. Triumphant she wrote her lover, "I can make lemon pie, custard pie and Washington pie all myself!" Then did this man from Maine and the land of orchards assert his loyalty to his home state most vigorously and back over the wires, 2,000 miles away, came this telegram, brief, but emphatic, "Try apple!"—Lewiston (Me.) Journal.

Pepys' Furnace.

An electric resistance furnace was used by Pepys in 1815 for the cementation of iron. He took a piece of pure, soft iron and cut a slit along its length. The slit was filled with diamond dust, which was prevented from falling out by fine iron wire. The portion of the wire containing the dust was wrapped in mica. The wire thus charged was heated quickly to redness by the current from a battery. On opening the wire Pepys found that the diamond dust had disappeared and that around where it had been the wire had been converted to steel.—London Engineer.

Followed Her Instructions.

Mrs. N. was giving instructions to her new servant: "Before removing the soup plates, Mary, always ask each person if he or she would like any more."

"Very good, madam."

Next day Mary, respectfully bowing to one of the guests, inquired, "Would the gentlemen like some more soup?"

"Yes, please."

"There isn't any left."—Chicago Journal.

An Odd Whist Deal.

A curious hand at whist was dealt at Grimsby, England, recently. The cards were shuffled and dealt in the usual way, but when the players looked at their hands they found that one of them had twelve spades, another eleven hearts, the third man twelve diamonds and the fourth eleven clubs. Spades were trump.

Drink LILY WATER...
And Preserve Your Health.

Absolutely freed from all impurities by the Schantz Filtration Process. It is recommended by the most eminent physicians to be a pure, healthy and hygienic water. Plain and carbonated.
